Good morning, David,
I hope you had a nice holiday weekend, even with the heat. I just wanted to check in on the status of Lynch Canyon and Sespe and see if there is an update.

Megan

Good morning David,
Just checking in on Sespe – is there any update after your meeting last Thursday?

Thanks,
Megan

Hi Megan, sorry for the delay in getting back to you. We are expecting CalGEM to provide their final response on Lynch Canyon as early as today (my staff had a call with them last week). That submittal will be reviewed by our contractor to ensure we have all the responses needed. The Sespe proposal is still being worked on by the state and I do not have a time estimate for the state's response. We have our monthly meeting with State Bd and CalGEM this Thursday, so we will receive an update on Sespe then.

Regards,
David

Subject: AE Status

Hi David,

I hope you are doing well and have had a nice summer. I wanted to check in on the status of the aquifer exemption packages. I've heard from CalGEM that they were going to have a call with EPA before sending back the final materials for Lynch Canyon/Lanigan Sands. Has that call occurred and have they sent the materials over to you? Were you also able to get an update on the Sespe aquifer exemption?

Thank you,
Megan
